

An efficient, friendly way of receiving your visitors

You want your customers and visitors to be pleasantly received when visiting your company, but by cost or practical circumstances it is not always profitable to hire a receptionist. For example, because you have a lot of sites with a small number of visitors or because your entrance is too for a reception desk. Even without reception or security staff, visitors feel welcome. With our automated and clear solutions guests are still received friendly without having to deploy any staff.

Simple operation

Upon entering your facilities it is important that visitors immediately see what is intended. With a display on the counter or a kiosk in the lobby, your visitors will know that they have arrived at the right place. Operation is simple. The touchscreen puts your guests via telephone and / or video link, in contact with the appropriate department or contact person.

Fitted to your situation and needs

Submitting a visit can either be done by its own employees or by the visitor himself (self-service check-in). This includes printing and activating a visitor badge. You decide what information you want to display on the screen and to what level of access a user is authorized to. If you wish, you can show house rules, procedures and safety instructions or introduction- and/or safety regulation movie. The information on the screen and the next steps we will arrange in consultation with you, according to your wishes and add your corporate identity if desired. The system is a stand-alone and can also be used within a network.

Your visitors:

- Can be received from a remote distance as personal as possible.
- Can be provided fast and efficient access.
- Can be quickly supplied with a personal visitor badge.
- Can be made clear what the procedures and safety regulations are.
- Can be made clear where they can register and where they have access to.

Contact

Offer customers and visitors the same service as a receptionist on the spot, at a lower cost. Want to know more about the possibilities or wish to receive a quotation? Please contact G10, phone +31 (0)75 640 35 35 or e-mail info@G10.nl.
